

## ORTON-GILLINGHAM TRAINING

### Why Is The O-G Methodology Important?

According to Reading Is Fundamental (RIF), 1 in 4 children in America grow up without learning how to read. Two-thirds of students who cannot read proficiently by the end of 4th grade will end up in jail or on welfare. In this country, we are experiencing an alarming literacy crises.

The Orton-Gillingham methodology has been proven to be the most effective reading intervention through research and evidence-backed data. It has 80 years of proven research providing evidence that this teaching approach is specifically designed to help ALL students at any level and specifically targets students struggling with dyslexia and English Language Learners. It is also backed and supported by the International Dyslexia Association (IDA) and the National Institute of Learning Development (NILD).

**What is Orton-Gillingham International?** (OGI is certified by IDA)
