

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: San Diego Cooperative Charter School

CDS Code: 37683386119168

School Year: 2022-23

LEA contact information:

Sarah Saluta

Executive Director

sarah@sdccs.org

(858) 496-1613

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs

and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2022-23 School Year

This chart shows the total general purpose revenue San Diego Cooperative Charter School expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for San Diego Cooperative Charter School is \$5,722,847, of which \$4,258,566 is Local Control Funding Formula (LCFF), \$693,805 is other state funds, \$128,300 is local funds, and \$645,176 is federal funds. Of the \$4,258,566 in LCFF Funds, \$340,593 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much San Diego Cooperative Charter School plans to spend for 2022-23. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: San Diego Cooperative Charter School plans to spend \$5,683,847 for the 2022-23 school year. Of that amount, \$4,683,130 is tied to actions/services in the LCAP and \$1,000,716 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Major general fund expenditures not included in the LCAP include operating expenses (facilities, utilities, maintenance costs) and staffing costs that support the organization (custodian, clerical staff).

Increased or Improved Services for High Needs Students in the LCAP for the 2022-23 School Year

In 2022-23, San Diego Cooperative Charter School is projecting it will receive \$340,593 based on the enrollment of foster youth, English learner, and low-income students. San Diego Cooperative Charter School must describe how it intends to increase or improve services for high needs students in the LCAP. San Diego Cooperative Charter School plans to spend \$795,812 towards meeting this requirement, as described in the LCAP.

We believe in the necessity of supporting all students at SDCCS. In an effort to meet the needs of our students and utilize Instructional Assistants (IA's) to serve in reducing the staff-to-student ratios allowing for all students to access adult educational support. Our IA's will work to provide targeted interventions for our Emergent bilingual, Low Socioeconomic, Foster, and Homeless students.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2021-22

This chart compares what San Diego Cooperative Charter School budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what San Diego Cooperative Charter School estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2021-22, San Diego Cooperative Charter School's LCAP budgeted \$768,792 for planned actions to increase or improve services for high needs students. San Diego Cooperative Charter School actually spent \$797,126 for actions to increase or improve services for high needs students in 2021-22.

The difference between the budgeted and actual expenditures of \$28,334 had the following impact on San Diego Cooperative Charter School's ability to increase or improve services for high needs students:

We believe strongly that supporting all students and one of the most effective ways we do that is to increase the adult to student ratio in our classrooms. Anything that was spent above the supplemental grant was used to hire Instructional Assistants.

Supplement to the Annual Update to the 2021–22 Local Control and Accountability Plan

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
San Diego Cooperative Charter School	Sarah Saluta Executive Director	sarah@sdccs.org 8584961613

California’s 2021–22 Budget Act, the federal American Rescue Plan Act of 2021, and other state and federal relief acts have provided local educational agencies (LEAs) with a significant increase in funding to support students, teachers, staff, and their communities in recovering from the COVID-19 pandemic and to address the impacts of distance learning on students. The following is a one-time mid-year report to the local governing board or body and educational partners related to engagement on, and implementation of, these Acts.

A description of how and when the LEA engaged, or plans to engage, its educational partners on the use of funds provided through the Budget Act of 2021 that were not included in the 2020–21 Local Control and Accountability Plan (LCAP).

San Diego Cooperative Charter School (SDCCS) is committed to communicating and seeking feedback from its stakeholders. We used surveys to receive feedback from parents that assisted in helping to guide our LCAP and budgeting process.

Staff was also essential in deciding what kinds of Professional Development were wanted and needed as we face the unprecedented needs in our classrooms. In addition to both parents and staff, we worked closely with our Board of Directors, seeking feedback, reviewing plans, and ensuring that we are in compliance. All additional funds have required plans for reporting and spending in their unique restrictions.

A description of how the LEA used, or plans to use, the additional concentration grant add-on funding it received to increase the number of staff who provide direct services to students on school campuses with an enrollment of students who are low-income, English learners, and/or foster youth that is greater than 55 percent.

N/A

A description of how and when the LEA engaged its educational partners on the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils.

SDCCS utilizes surveys, public meetings, newsletters, and parent association meetings to engage our stakeholders in the use of one-time federal funds. Our plans included expanded learning, additional academic services, device upgrades and connectivity, professional development, mental health supports, and increased health and safety measures.

Three different surveys were given in 2022 directed to parents, teachers, staff, and students. These surveys both guided and supported our ideas around the recovery of learning loss and additional academic services. Monthly board meetings included the mandatory written plans along with presentations on stakeholder feedback. Our parent/teacher organization meetings often discussed staff, students, and community needs.

The summer plans were created to support a variety of students in multiple ways. Feedback from parents reflected the student's need for socialization and connection to other students for mental health after several years of a Pandemic. Other parents have expressed concern about the impacts that COVID had on students' mental health, anxiety, and academics. Our program took these concerns into account and created diverse extended school opportunities to meet the needs of our population.

Our staff has been involved in the thinking around the creative ways of providing supplemental activities to reduce the learning gap, create targeted interventions, increase engagement, and provide social and physical activities for our students' well-being. Our Administrators were crucial in looking at the 30,000-foot data to identify student groups to target to reduce the learning gap.

A description of how the LEA is implementing the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure plan, and the successes and challenges experienced during implementation.

We have built an all-encompassing ESSER III plan that will be implemented in future years with a focus on the safety of staff and students while ensuring the continuity of our ample educational offerings.

Our ESSER III and ELOP plans are extensive and diverse. We have created the plans with the idea of targeting our unduplicated students while also making sure to offer opportunities to all of our student groups as the pandemic impacted every student.

Staff, students, and parents were surveyed, gauging the need for and interest in programs. Between our Extended School Year and camps, we provided seven weeks of free learning opportunities that support families who were looking for affordable child care as well as summer engagement.

Extended School Year

Students are assessed for our Extended School Year (ESY) by their Case Managers and Director of Special Education. Determining ESY eligibility should be a data-informed decision-making process that helps the IEP team determine whether services are necessary for a student to progress over time and to benefit from the IEP.

Two themes emerge in the determination of eligibility:

1. ESY services are necessary when a child will experience significant regression in the absence of an educational program and the time it will take to relearn the skills is excessive, referred to as the regression/recoupment model.
2. ESY services are necessary when the progress the student made during the school year will be significantly jeopardized during school breaks; or when a student is at a critical point in skills acquisition (e.g., demonstrating emerging skills).

Chillin' and Skillin'

Our Chillin' and Skillin' camp will be open and available to all students with priority given to our unduplicated students. This camp is available to all SDCCS students however we really encourage students to attend who are not making expected progress. We believe that targeted interventions will support academic progress.

Performing Arts, Art, Movement, and Science and Engineering Camps

The Camps will be open to anyone who would like to participate. We look forward to inviting our 8th-grade graduates to participate as Mentors and support these programs.

Instructional Assistant Training

We will train any of our IA's before the school year and throughout. Our plan is to provide this training in August to all of our IA's. We will film the training and continue to offer professional development to IA's as we onboard them throughout the school year.

FEV Tutoring

We will have available online tutoring for every student in grades 3 and up. The students can choose the subjects for tutoring or they can be assigned by the teacher. This tutoring can take place either at home or at school.

Winter and Spring Camp

We will be offering one week of camp during winter break and one week at spring break.

These camps will be open to all students that want to attend and are provided for increased student engagement and child care for families who would like to participate.

A description of how the LEA is using its fiscal resources received for the 2021–22 school year in a manner that is consistent with the applicable plans and is aligned with the LEA’s 2021–22 LCAP and Annual Update.

SDCCS has very clear goals to support all of our students but with a specific focus on our unduplicated students. We have not only written it into our LCAP goals but we have also invested our federal funds and fiscal resources to support this goal. SDCCS has created opportunities such as tutoring, summer camps and invested in additional staff to support classroom teachers. All of these plans have been conducted with a focus on health, safety, and equity.

These plans were not made in a bubble but rather with the feedback and engagement of our stakeholders and community. We continue to seek feedback and align our practices with the desires of our community. Our Administration is committed to clear and consistent two-way communication with our families and staff.

Instructions for the Supplement to the Annual Update for the 2021–22 Local Control and Accountability Plan Year

For additional questions or technical assistance related to the completion of the Supplement to the Annual Update to the 2021–22 Local Control and Accountability Plan (LCAP), please contact the local county office of education (COE), or the California Department of Education’s (CDE’s) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction

California’s 2021–22 Budget Act, the federal American Rescue Plan Act of 2021, and other state and federal relief acts have provided local educational agencies (LEAs) with a significant increase in funding to support students, teachers, staff, and their communities in recovering from the COVID-19 pandemic and to address the impacts of distance learning on students. Section 124(e) of Assembly Bill 130 requires LEAs to present an update on the Annual Update to the 2021–22 LCAP and Budget Overview for Parents on or before February 28, 2022, at a regularly scheduled meeting of the governing board or body of the LEA. At this meeting, the LEA must include all of the following:

- The Supplement to the Annual Update for the 2021–22 LCAP (2021–22 Supplement);
- All available mid-year outcome data related to metrics identified in the 2021–22 LCAP; and
- Mid-year expenditure and implementation data on all actions identified in the 2021–22 LCAP.

When reporting available mid-year outcome, expenditure, and implementation data, LEAs have flexibility to provide this information as best suits the local context, provided that it is succinct and contains a level of detail that is meaningful and accessible for the LEA’s educational partners.

The 2021–22 Supplement is considered part of the 2022–23 LCAP for the purposes of adoption, review, and approval, and must be included with the LCAP as follows:

- The 2022–23 Budget Overview for Parents
- The 2021–22 Supplement
- The 2022–23 LCAP
- The Action Tables for the 2022–23 LCAP
- The Instructions for the LCAP Template

As such, the 2021–22 Supplement will be submitted for review and approval as part of the LEA’s 2022–23 LCAP.

Instructions

Respond to the following prompts, as required. In responding to these prompts, LEAs must, to the greatest extent practicable, provide succinct responses that contain a level of detail that will be meaningful and accessible for the LEA’s educational partners and the broader public and must, to the greatest extent practicable, use language that is understandable and accessible to parents.

In responding to these prompts, the LEA has flexibility to reference information provided in other planning documents. An LEA that chooses to reference information provided in other planning documents must identify the plan(s) being referenced, where the plan(s) are located (such as a link to a web page), and where in the plan the information being referenced may be found.

Prompt 1: *“A description of how and when the LEA engaged, or plans to engage, its educational partners on the use of funds provided through the Budget Act of 2021 that were not included in the 2020–21 Local Control and Accountability Plan (LCAP).”*

In general, LEAs have flexibility in deciding what funds are included in the LCAP and to what extent those funds are included. If the LEA received funding through the Budget Act of 2021 that it would have typically included within its LCAP, identify the funds provided in the Budget Act of 2021 that were not included in the LCAP and provide a description of how the LEA has engaged its educational partners on the use of funds. If an LEA included the applicable funds in its adopted 2021–22 LCAP, provide this explanation.

Prompt 2: *“A description of how LEA used, or plans to use, the concentration grant add-on funding it received to increase the number of staff who provide direct services to students on school campuses with an enrollment of students who are low-income, English learners, and/or foster youth that is greater than 55 percent.”*

If LEA does not receive a concentration grant or the concentration grant add-on, provide this explanation.

Describe how the LEA is using, or plans to use, the concentration grant add-on funds received consistent with California *Education Code*

Section 42238.02, as amended, to increase the number of certificated staff, classified staff, or both, including custodial staff, who provide direct services to students on school campuses with greater than 55 percent unduplicated pupil enrollment, as compared to schools with an enrollment of unduplicated students that is equal to or less than 55 percent.

In the event that the additional concentration grant add-on is not sufficient to increase the number of staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, describe how the LEA is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Prompt 3: *“A description of how and when the LEA engaged its educational partners on the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils.”*

If the LEA did not receive one-time federal funding to support recovery from the COVID-19 pandemic and the impacts of distance learning on students, provide this explanation.

Describe how and when the LEA engaged its educational partners on the use of one-time federal funds it received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on students. See the COVID-19 Relief Funding Summary Sheet web page (<https://www.cde.ca.gov/fg/cr/relieffunds.asp>) for a listing of COVID-19 relief funding and the Federal Stimulus Funding web page (<https://www.cde.ca.gov/fg/cr/>) for additional information on these funds. The LEA is not required to describe engagement that has taken place related to state funds.

Prompt 4: *“A description of how the LEA is implementing the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure plan, and the successes and challenges experienced during implementation.”*

If an LEA does not receive ESSER III funding, provide this explanation.

Describe the LEA’s implementation of its efforts to maintain the health and safety of students, educators, and other staff and ensure the continuity of services, as required by the federal American Rescue Plan Act of 2021, and its implementation of the federal Elementary and Secondary School Emergency Relief (ESSER) expenditure plan to date, including successes and challenges.

Prompt 5: *“A description of how the LEA is using its fiscal resources received for the 2021–22 school year in a manner that is consistent with the applicable plans and is aligned with the LEA’s 2021–22 LCAP and Annual Update.”*

Summarize how the LEA is using its fiscal resources received for the 2021–22 school year to implement the requirements of applicable plans in a manner that is aligned with the LEA’s 2021–22 LCAP. For purposes of responding to this prompt, “applicable plans” include the Safe Return to In-Person Instruction and Continuity of Services Plan and the ESSER III Expenditure Plan.

California Department of Education
November 2021

Local Control Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
San Diego Cooperative Charter School	Sarah Saluta Executive Director	Sarah@sdccs.org (858) 496-1613

Plan Summary [2022-23]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

San Diego Cooperative Charter School (SDCCS) is built on the foundation of providing a progressive, developmental, child-centered, and constructivist education. In a constructivist classroom, the teacher's role is to observe, note children's interests, ask probing questions, to encourage intellectual exploration, to experiment, and provide needed resources in a warm and welcoming classroom environment. In practice, this results in a project-based curriculum built on student interests and student needs. This facilitates the kinds of interactions, explorations, and problem solving that result in knowledge construction and conceptual development. Students learn language arts, mathematics, and science concepts through real-world activities, simulations, and projects.

In 2002, San Diego Cooperative Charter School began providing students with an outstanding education ignited by parents who were searching for an elementary and middle school that encouraged parent participation in the classroom and included deep learning in all subjects: honoring art, music, and movement (physical education), and where social-emotional learning was a central tenet. With teachers, parents, and students working in unison, SDCCS became a success measured by student growth, parent interest, and student engagement & retention.

In a typical year, SDCCS serves 466 children in grades transitional kindergarten through eighth grade and is a vibrant community of students, teachers, staff, and families. Our students flourish in an environment where there is a high level of family engagement, and we continually work to foster this community spirit. We are proud to be an Ashoka Changemaker School, due to our focus on Empathy Education.

The SDCCS community believes in fostering growth in the whole child, providing a multi-dimensional education to develop each child academically, socially, emotionally, physically, artistically, and culturally. In addition to an academically rich environment, students enrolled at SDCCS have access to Performing Arts classes, PE, Dance, and Garden / Science Lab classes within and outside of the self-contained classroom setting. The entire instructional staff is trained in social-emotional practices supported by credentialed counselors. In Middle

School, students have a diverse selection of elective classes to choose from, including Integrated Math One, 3D Art, Design Engineering, Debate, ASB, and other choices that foster teamwork and creativity.

In a developmentally based, child-centered classroom, educators understand that students progress at different rates and respond to varying instructional strategies and tools. Educators at SDCCS recognize and plan for every learning style and provide an environment for each learner to progress. Lessons are differentiated to meet each child's needs, whether the student needs additional support or deeper dives into content to inspire continuous educational growth. Teachers, parents, and students collaborate in Goal Setting Conferences to set individual goals for every child. SDCCS fosters an environment where students and their families are vested partners in the child's education and growth.

Parent involvement is a cornerstone of SDCCS. The parents and families are highly engaged in a variety of volunteer and educational opportunities. Parents are welcomed and encouraged to be co-educators in our classrooms, as well as a multitude of other volunteer opportunities. Teachers and staff provide educational opportunities for parents and our dynamic PSA organizes community-building events. The community spirit of SDCCS is most evident at our Project Nights. Student work is displayed in each classroom, students have an authentic audience for their work, as well as hands-on activities for students to share their learning. Families come together in a festive atmosphere to celebrate student learning and gather as a community.

This collaborative spirit of SDCCS extends beyond the school's learning community. SDCCS currently has a strong working relationship with the University of San Diego and San Diego State University. Both USD and SDCCS are Ashoka Changemaker schools working to build empathy and move students to action to affect the local and global community. The Associated Student Body (ASB) has participated in food drives, as well as community service projects to benefit local outreach organizations. The goal of ASB is to work within the community to build relationships. It is part of the plan to continue to work and build relationships within the Linda Vista community.

SDCCS graduates filter into high schools throughout San Diego. Graduates find success in a diverse range of charter high schools to International Baccalaureate programs at San Diego High School and Mission Bay High School. SDCCS students are well-prepared to meet the demands of rigorous high school expectations and flourish by utilizing the critical thinking and creative problem-solving skills they acquired at SDCCS. These students are well equipped for academic challenges as well as being self-aware young people who have learned self-advocacy, and self-management.

SDCCS is a thriving community of students and the adults who support them. The school is a well-established learning institution with 20 years in operation. The staff and administration believe in the continuous growth of students and the educators who teach them; we are always preparing for the future while keeping our Mission and Vision at the center of our work.

Students enrolled at SDCCS reside in many parts of San Diego County, with a preference given to those in the San Diego Unified School District boundaries. We are proud to serve students from neighborhoods throughout the county and have seen our population from the Linda Vista Community rise to over 40% in the past few years. The school is located on a San Diego Unified School District (SDUSD) property at 7260 Linda Vista Road, San Diego, CA, 92111. We were approved for a \$28 million reconstruction through Prop 39 and are currently in

Phase 3 of a planned four-phase project. We are excited to be working with San Diego Unified School District and the Linda Vista community through this project.

Mission

The San Diego Cooperative Charter School supports a progressive, developmentally based, child-centered community for active and collaborative student learning where shared values of family, diversity, relationship, creativity, and academic excellence flourish.

Vision

We respect that which makes each child unique and promotes the cognitive, imaginative, creative, social, emotional, and physical development of all students. In order to provide high-quality educational services, we have built a supportive, cooperative community - a true collaboration of children, families, and school staff, where we embrace diversity and honor the unique contributions of each individual. This environment is intended to enhance the joy of learning for all and to inspire discovery, creativity, and a commitment to lifelong learning.

Our vision is to employ differentiated methods to meet each child's needs and to enable the learner to make connections between the curriculum and the outside world. Knowledge of brain development, multiple intelligences, learning styles as well as strategies for differentiation inform instruction in all classes. Service-learning and environmental stewardship are integrated into the curriculum in order to promote a strong social ethic in our student population. At San Diego Cooperative Charter, all members of the school community work together to promote the success of each learner.

Our staff is highly skilled and supported in their daily effort to refine their craft. We continuously monitor our progress toward achieving our goals to ensure that we are effectively utilizing available financial and human resources to maximize student performance and exceed district and statewide standards.

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

Due to the COVID-19 pandemic, state law has suspended the reporting of state indicators on the 2021 Dashboard. We anticipate an updated dashboard in the fall of 2022.

SDCCS staff have proven to be nimble and able to modify swiftly to the many challenges that the pandemic has provided. Students have been learning on campus for the entire 2021-2022 school year and although there have been more absences due to Covid-19, we have run an enriched, on-site, academic program.

We are proud of our success in cultivating a safe and welcoming culture due to our investment in social/emotional programs and parent involvement. All indicators point to our progress in this area. This is clearly evident not only from our scores and feedback we received from the LCAP survey but also from our excellent student behavior data. It is further evident from the significant level of parent and student engagement and especially at our community celebrations of student learning, namely: Art Night, Student-Led Conferences, Project Nights, and 8th Grade Exit Portfolios.

We believe that ongoing learning is a key to success for our school. Our identified areas of growth and focus for professional development are to advance learning, with a focus on Illustrative Math, Universal Design for Learning (UDL), strengthening our constructivist approach, and our continued integration of the arts. We have honed our ability to focus on individual students to meet each student at their level and provide meaningful opportunities for growth and success even while teaching remotely.

Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

The CAASPP data shows a persistent performance gap between math and language arts. Our most recent MAP scores show that we are narrowing the performance gap.

Unpacking this new data with the mathematics team and analyzing the effect of current practices including the 8th grade integrated math class, the implementation of a site-based math coordinator, and our summer camp program supporting unduplicated students, will help us make programmatic and instructional adjustments. The adoption of Illustrative Math in the 2019-2020 school year will align our grade levels vertically and create school-wide math practices. We have already seen a noted increase in student scores due to this program.

SDCCS serves students with disabilities at more than twice the state average. SDCCS is working to build a continuum of services in an inclusive instructional design to ensure that our students that need a more restrictive environment are able to access one while others are in a full-inclusion model.

Our administrative and teacher team have analyzed the CAASPP scores by student group. We have concerns with the performance of EL (Emergent Bilingual) students in both Math and ELA on the CAASPP assessment. We have been working with Learning While Leading to strengthen our practice and increase our ability to serve these students.

Our Emergent Bilingual program, in the progress of being built and fortified, will provide support to our EL students through a Structured English Immersion model. Taking into account our full inclusion, constructivist, and multi-age model, we are seeking consultation with EL

experts in the field to help us ensure that the development of explicit vocabulary and reading skills are linked to the ELD standards and best practices for second language learners. Beginning in 2021 we are partnering with Learning While Leading to strengthen our program and our EL professional development.

In addition to strengthening our EL program, we will be fine-tuning our Multi-Tier Systems of Support (MTSS) with planned professional learning communities to review data, accommodations, and systems of support.

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

San Diego Cooperative Charter School is in the second year of a three-year LCAP.

SDCCS was created by parents and educators who valued the cooperative/parent participation experience. Since our inception, SDCCS has been a student-centered, developmentally focused, socially emotionally rich school.

Our LCAP goals underscore these efforts and our commitment to cultivating empathic and inspired learners.

The SDCCS LCAP Goals expand on these concepts found in the charter documents, strategic goals, and WASC work.

1. With a diversity, equity and inclusion lens, SDCCS will continue to provide all students with high-quality developmental, constructivist educational programs using evidence-based pedagogical strategies with rigorous standards aligned curriculum that focuses on the diverse learning needs of our students so they are prepared for the ever-changing global world.
2. Continue to invite and engage parents and other stakeholders to be involved in our program through collaboration and communication to support all students in increased attendance that leads to a path to college and career readiness.
3. All students will receive a broad course of instruction from appropriately trained and credentialed teachers will have access to standard aligned instructional materials, and will learn in a rich, functional, and safe academic environment.
4. Developed a Multi-Tiered System of Supports (MTSS) framework as part of a strategic effort to meet the academic needs of the SDCCS's diverse student population specifically our English Learners, Foster Youth, and students with Disabilities.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A

Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

Stakeholder engagement is a foundational element for SDCCS. Our CoOp model not only invites feedback from stakeholders but encourages it. In the process of building this LCAP we have met with parents while strategic planning, at a Board of Directors Meeting, at our ELAC meeting and finally School Site Council to discuss our future goals for the LCAP. A survey was sent to all students, outside stakeholders, staff and families. The goal of all of the communication was to find out what we are doing well, where we can improve and what are our goals for the years to come.

Our plan was to develop multiple ways and opportunities for parents to engage. We specifically have tried to increase our feedback and engagement from our Latin X community. We have increased translations in writing, meetings and have even had our front office call families to encourage their participation.

In reviewing all of the feedback given it was evident that we wanted to have a specific focus on equity and inclusion. Hand in hand with that we heard goals for strengthening and systematizing our Multi-Tiered Systems of Support (MTSS). Inclusion continues to be an area valued by our community and having an intentional plan to support our most vulnerable populations within that inclusion model. This feedback led to the creation of Goal 4 to develop a Multi-Tiered System of Supports (MTSS) framework as part of a strategic effort to meet the academic needs of the SDCCS's diverse student population specifically our Emergent Bilingual Students, Foster Youth, and Students with Disabilities.

A summary of the feedback provided by specific educational partners.

The feedback given by our stakeholders has been very valuable and used to create not only our LCAP but our Strategic Plan. The feedback indicated that our current social-emotional program is working to support our students. They have indicated that they are feeling safe and cared for in their educational journey.

Students surveyed indicated that adults are available to support them 100% of the time on academics, artistic expression, and physical fitness. Students also reported feeling both physically and emotionally safe in their classrooms. This statistic means a lot to our organization as it is at the heart of what we do, supporting children.

In meeting with our ELAC committee they expressed gratitude for the support that was given and invitations for collaboration were important. They also appreciated the continued effort of translations, and staff support.

Through our surveys, we were able to see that some parents were frustrated that they have not been allowed on campus due to COVID - 19 and that is represented in our volunteer hours served throughout the year. We have made sure to keep a goal that includes volunteering and that we continue to invite parents to be actively involved in their child's education and school community.

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

Through the years of creating the LCAP, our goal has always been to be staffed with the most qualified educators available to students. This year's feedback from staff specifically indicated that we have room to improve our services in a more intentional way for our Emergent Bilingual Students. Improving and expanding upon a Multi-tiered System of Support that includes:

- Universal screening of all students early in the school year
- Tiers of interventions that can be amplified in response to levels of need
- Ongoing data collection and continual assessment
- Schoolwide approach to expectations and supports
- Parent involvement

Based on the feedback from our teachers, parents of Emergent Bilingual Students, and the administration team will work together to design professional learning communities where teams are engaged in professional development to expand upon interventions and improve teaching strategies specifically to promote the achievement of English Language Learners.

Staff will work with a designated Emergent Bilingual instructional team to align classroom instruction with the English Language Development Standards. Teams will examine data on a regular basis to reflect on these practices to determine if interventions and strategies are promoting student learning.

Parent feedback from meetings and surveys show that volunteering and involvement in their student's school is something deeply valued in our parent community. We track parent volunteer hours annually and will continue to engage all stakeholders to volunteer in meaningful ways.

Goals and Actions

Goal

Goal #	Description
1	With a diversity, equity, and inclusion lens, SDCCS will continue to provide all students with high-quality developmental, constructivist educational programs using evidence-based pedagogical strategies with a rigorous standards-aligned curriculum that focuses on the diverse learning needs of our students so they are prepared for the ever-changing global world.

An explanation of why the LEA has developed this goal.

Our school has been working on DEI in everything we do, it is a part of our mission, vision, strategic plan and parents indicated in meetings and through our survey that these areas of focus were a priority for our community. Additionally, our staff and parents have indicated the continued growth and understanding of evidence-based pedagogical strategies to meet the needs of our extraordinary diverse learning community.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
1A. EL performance on ELPAC Summative Assessment.	Create a new baseline performance on the ELPAC Summative Assessment.	33.33% of our Emergent Bilingual Students were well developed on our 2020-2021 ELPAC			We hope to achieve 35% of Emergent Bilingual students testing on at well developed on the Summative Assessment on the ELPAC
1B.Continue implementing classroom supports utilizing the RTI model, maintaining a Special Education identification rate of less than 5%	3.4% in 2016-2017. 13 newly identified.	3.0% in 2021-2022 with 13 students newly identified.			Maintaining an identification rate less than 4%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
1C. California Assessment of Student Performance and Progress (CAASPP). Based on 2018-2019 CAASPP data.	48.2% of ELA Students Meet or Exceed 31.5% of Math Students Meet or Exceed CAASPP data above is based on preliminary results from 2019	53.05% of ELA Students Met or Exceeded Standards, 39.7 of Math Students Met or Exceeded Standards CAASPP data above is based on 2020-2021 CAASPP results			CAASPP Data 56% of ELA Students Meet or Exceed 39% of Math Students Meet or Exceed
1D. We will maintain a Middle School Dropout Rate of 0%	0% in 2018-2019	0% in 2021-2022			0% drop out rate in 2023-2024
1E. We will aim for an attendance rate of 96% or higher.	94.8% in 2019-2020 ADA	93.1% in 2020-2021 ADA			95% attendance rate
1F. We will maintain an 8th grade exit portfolio pass rate of 100%.	100% in 2019-2020	100% in 2021-2022			100% pass rate in 2023-2024

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Maintain an Exceptional Progressive Base Program with Rich Professional Development	Base Program: Schoolwide focus on differentiated instruction that provides students with instruction at the point of need that includes the following strategies: a. Multiple measures are used to monitor the progress of all students.	\$1,837,032.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>b. Teachers and support staff will monitor student progress and implement intervention strategies.</p> <p>c. Instructional & administrative staff will analyze student data to inform strategic decisions.</p> <p>d. Implement the co-created plan to enact higher-level mathematical practices for teachers and students.</p> <p>e. Continued learning around the new math curriculum, Professional Learning Communities will serve as accountability and pacing partners.</p> <p>f. Continued use and training in Orton Gillingham evidence-based reading program.</p> <p>g. Create Professional Learning Communities to strengthen MTSS and data-driven decision-making.</p>		
1.2	Build an EL program that will support the needs of English Learners	<p>Supplemental:</p> <p>a. Provide differentiated professional development for instructional staff to support the EL needs of students supported by an EL expert.</p> <p>b. EL coordinator will analyze the data to facilitate school-wide and team level training focusing on Success For All (SFA) with a Structured English Immersion instructional plan in all classrooms.</p> <p>c. Teachers and support staff will provide targeted interventions to meet the needs of unduplicated pupils.</p> <p>d. EL coordinator will implement a parent education program.</p> <p>e. Build mathematical academic vocabulary that is critical to performance tasks and other assessments requiring non-fiction comprehension to structure and solve mathematical equations.</p>	\$968,033.00	Yes

Action #	Title	Description	Total Funds	Contributing
1.9	Further build a system of support for EL families.	English Learner Advisory Committee (ELAC) develops a strategic plan to support family-school engagement that is inclusive and accessible. Increase translated materials to support school engagement.	\$5,000.00	Yes
1.11	Math professional development that continues the learning, accountability and pacing involved with Illustrative Math	The math Coordinator will work with teacher and admin teams to identify needed professional development to strive for a consistent and high level of math instruction across grade levels. and for all learners. Professional Learning Communities will provide the opportunity for accountability, pacing support, and data review of student math work.	\$5,000.00	No
1.12	We developed a School Re-Engagement plan for the 2019 LCP that works to communicate with families and students when kids are not attending class.	To increase attendance for all students and specifically target those who are chronically absent, utilize the protocol developed in 2019-2020 which includes identifying causes of chronic absenteeism, and continue to document the use of strategies.	\$64,811.00	No

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

We were very successful regarding our school-wide focus on differentiated instruction that provides students with instruction at the point of need. We did implement our MTSS system successfully in about half of our classrooms. We did not however create effective PLCs for student data review. This will be a focus as we move forward in our professional development. We did have a professional development on

math pacing that was effective however we were unable to have the follow-up meeting to ensure all teachers were on track. As we build our professional development for next year our goal is to frequently review our math data in our PLCs.

We did however successfully re-engage some of our students who have had chronic absenteeism. We will be modifying our Re-engagement plan to align it with the new attendance plan from the county as well as utilize the resources offered.

We have had success in strengthening our systems of support for not only our Emergent Bilingual students but also their families. We successfully held an ELAC meeting and increased our translations in communications, school meetings, portfolios, and IEP meetings.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

This year we had less than budgeted teacher salaries due to staffing changes, and it is because of that, that we were able to offer a \$172,000 bonus structure for our staff.

In an effort not to cross cohorts for safety purposes we did not offer the before and after school services as planned. In lieu of these in-person services, we have invested in an online tutoring program that can be used by all of our 3rd - 8th-grade students.

Additionally, we were unable to find a qualified music teacher to work with our students. We took some time to combine our dance and music program and instead we created a Performing Arts class. This program change was a cost-saving however we did hire an additional specials teacher for Gardening and Science.

Staffing for our Special Education program was difficult this year. We were unable to find quality staff ourselves and had to work through a contractor. Although we were relieved to find the help the staff provided was not a good fit for our culture and were let go, reducing the projected costs.

An explanation of how effective the specific actions were in making progress toward the goal.

We were successfully able to meet the needs of both our families and our students during a global pandemic. We feel proud of the progress we are making in building a program to meet the needs of our Emergent Bilingual students and their families. Our weekly meeting with our Learning While Leading guide was essential in helping us to ask the correct questions and build a program that meets our population's needs.

Our work with students who are chronically absent has helped to understand their needs and help them not just with a band-aid but by systematically helping them and their families.

Although we did not meet our expected goals around our PLC we did get into learning communities that we plan to utilize as we move forward into our next school year.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

After observing the impact of COVID-19 on attendance we have been looking carefully at our attendance goal. With kids out for up to two weeks with COVID, it can really impact our percentage rate. 96% was aspirational pre-COVID, we have reduced it to 95%, a rate that we will have to strive to achieve.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
2	Continue to invite and engage parents and other stakeholders to be involved in our program through collaboration and communication to support all students in increased attendance that leads to a path to college and career readiness.

An explanation of why the LEA has developed this goal.

Research has shown that the single greatest predictor of student success is parent involvement. At SDCCS parent involvement is not only welcomed but also structured to create the greatest possible positive effect on the students. Parents need a community – friends, and acquaintances – who offer advice, sympathy, laughter, and company in the hard work of being a good parent. We are a diverse group by many measures, but we share a passion for our children and an ability to walk our talk that we are very proud of.

Parent volunteering is a priority for our families and they are indicated through surveys, at the board, and through our community meetings.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
2A. Maintain a parent volunteer program with 10,000 volunteer hours logged per year.	Our parent volunteer hours were 10,541 in 2020-2021 school year.	Our parent volunteer hours were 3,520 in 2021-2022 school year.			Maintain a parent volunteer program with 13,000 volunteer hours logged per year.
2B. Report Card Data - 100% of parents receive a detailed and updated learning profile of student strengths and areas of growth in a narrative form and are invited to meet with instructional staff.	100% of our parents received a narrative report card tailored to their child and invited to meet twice a year with the child's classroom teacher.	100% of our parents received a narrative report card tailored to their child and invited to meet twice a year with the child's classroom teacher.			100% of our parents received a narrative report card tailored to their child and invited to meet twice a year with the child's classroom teacher.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
2C. Minimum of 5 Parent trainings / informational meetings during and outside of the regular school day.	In 2020 we greatly exceeded the parent information meetings due to COVID-19. We offered 11 parent meetings.	In 2021-2022 School Year we offered 6 informational meetings throughout the school year.			Minimum of 5 parent trainings / informational meetings during and outside of the regular school day.
2D. Teachers meet with 90% of parent/guardian for student conferences	88% of parents met with teacher for student conferences.	94.6% of parents met with teachers for student conferences.			100% of parents met with teachers for student conferences.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Parent Engagement	<p>San Diego Cooperative Charter School was founded on the idea that parent & family involvement is an essential component for student achievement. The following strategies will be continued or enhanced to ensure meaningful parent/family involvement.</p> <p>a. Expand parent workshops to provide parents with learning opportunities that will allow them to be effective volunteers in the classroom.</p> <p>b. Provide opportunities for parents to participate in training (ie. Restorative practices and technology and mental health).</p> <p>c. Provide translation services at training to increase access for all parents.</p> <p>d. Provide opportunities for parents to develop a sense of educational advocacy by way of Board meetings, PSA representation, ELAC meetings, etc.</p> <p>e. Offer childcare to expand access to parent meetings.</p>	\$337,801.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>f. Identify and communicate a broad range of volunteer activities on and off-campus, during and outside of school hours.</p> <p>g Utilize technology to expand access to training.</p> <p>h. Make the volunteer tracking system more efficient and easily accessible to all of our parents so all of our volunteers log their hours.</p>		
2.2	Teacher /Parent Communications	<p>a. Teachers will communicate specific details about student progress across subject matter with parents through emails, conferences, and progress reports including but not limited to report cards, and offer specific ways for parents to support student learning at home.</p> <p>b. Teachers will keep parents informed about the curriculum, the importance of assessments, and school pedagogy through weekly newsletters to parents.</p> <p>c. Increased translated materials to keep non-English speaking parents engaged in their child's academic programs.</p>	\$50,976.00	No
2.3	Administration/Parent Communications	<p>a. The administration team will send regular monthly updates to parents about school events including board meetings, PSA meetings, spirit events, and classroom meetings, and continually communicate the importance of student attendance.</p> <p>b. ELPAC Coordinator will send information specific to English Language Learners, including information about preparing students for ELPAC and how to understand the results of ELPAC scores.</p>	\$158,007.00	No

Action #	Title	Description	Total Funds	Contributing
		c. Office staff and the administration team will monitor attendance rates and have parent meetings with parents of students who are chronically absent.		
2.4	Parent/Teacher Conferences	<p>a. Teachers will use technology to expand parent access and improve parent attendance at parent/teacher conferences. Since the pandemic, most are familiar with platforms like zoom. These platforms could make meeting with parents more convenient.</p> <p>b. Teachers will offer parents a wide range of dates and times for parent/teacher meetings.</p> <p>c. Teachers will work with the school administrative team to ensure interpreters are available for parents who need one during parent/teacher conferences.</p> <p>d. Teachers will post reminders and send emails for conferences.</p>	\$427,495.00	No

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Although we did not meet the parent volunteer hour goal we are proud of the participation we have had this year. We were not allowing parents onto campus for safety precautions due to COVID-19 for much of the year. This greatly impacted the amount of time that parents were invited to volunteer. As the pandemic progressed we were able to reduce these restrictions.

One of the gifts of the pandemic is that we were adjusted to meetings online. This made parent-teacher conferences more accessible for our families and increased the percentage of parents that we were able to meet with staff. This is a practice that we plan to continue.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Expenditures were not significantly different than what was budgeted.

An explanation of how effective the specific actions were in making progress toward the goal.

Similar to parent-teacher conferences it has been much easier to plan parent trainings throughout the year via zoom. We have seen much more participation if they are able to participate from home. These actions and modifications have helped in making progress toward our goal of parent-training.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

We did not make any changes in our goals and metrics. We had considered reducing our goal of 13,000 as we did not even come close to meeting that goal however we really do feel that the reductions was due to COVID-19.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
3	All students will receive a broad course of instruction from appropriately trained and credentialed teachers and will have access to standard aligned instructional materials, and will learn in a rich, functional, and safe academic environment.

An explanation of why the LEA has developed this goal.

Our families surveyed indicated the importance of a physically and emotionally safe environment

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
3A. All core teachers will meet the Highly Qualified Teacher standards	All core teachers meet HQT standards	All core teachers meet HQT standards			All teachers meet HQT standards
3B. Full time certificated staff received 60 hours + 2.5 full days = at minimum 80 hours of PD and collaboration time per year	Full time certificated staff received 60 hours + 2.5 full days = at minimum 80 hours of PD and collaboration time per year	Full time certificated staff received 60 hours + 2.5 full days = at minimum 80 hours of PD and collaboration time per year			Full time certificated staff received 60 hours + 2.5 full days = at minimum 80 hours of PD provided per year along with intentional small PLC that focus on focused instructional goals.
3C. Classified IAs will receive 2 full days + 20 hours = minimum of 36 hours	Classified IAs received 2 full days + 20 hours = minimum of 36 hours	Classified IA's received 5 full days of PD this year			Classified IAs received 2 full days + 20 hours = minimum of 36 hours

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
of PD provided per year	of PD provided per year				of PD provided per year along with structured lessons from the SELPA and EL Coordinator.
3C. The school will maintain a safe and functional academic environment as measured by the LCAP survey of all stakeholders.	90% of parents and 100% of students indicated that they learn in a safe and functional academic environment as measured by the LCAP survey	96.2% of parents and 100% of students indicated that they learn in a safe and functional academic environment as measured by the LCAP survey			98% of parents and 100% of students indicated that they learn in a safe and functional academic environment as measured by the LCAP survey
3D.. The leadership team will annually review and improve our Comprehensive Safety Plan	The leadership team will annually review and improve our Comprehensive Safety Plan	The leadership team annually reviewed, improved and had an April 2022 approval our Comprehensive Safety Plan by the Board of Directors			We will expand the leadership team that will annually improve our Comprehensive Safety Plan
3E. School staff will practice monthly safety drills	SDCCS staff practice a variety of drills monthly.	SDCCS staff practice a variety of drills monthly.			SDCCS staff practice a variety of drills monthly with at least one full scale disaster drill annually.
3F. SDCCS master schedule will include supervision of students at all times	Students are supervised at all times.	Students are supervised at all times.			Students are supervised at all times.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Schoolwide focus on curriculum development and instructional practices to meet the needs of all students.	<p>Staff and stakeholders will engage in a schoolwide study of data to determine areas to improve student learning by aligning curriculum with CCSS and improving Instructional strategies and Multi-Tiered Systems of Support that improves student learning across all content areas for all students with an emphasis on our unduplicated students.</p> <p>a. Continue professional development in grades TK-8 in Illustrative Math Curriculum that includes Professional Learning Communities that examine student work, use reliable assessments, and support each other by observing each other and offering feedback to improve instruction and student achievement. Team leads will share student data with the administration team throughout the year. The administration team will participate in classroom observations and attend team meetings to identify the most effective teachers and teachers who need to be targeted for more PD to improve instruction.</p> <p>b. Grades TK-2 teachers will have opportunities to continue to improve their implementation of the Orton Gillingham approved reading program as a Tier 1 and Tier 2 intervention.</p> <p>c. Grades TK-8 will continue to have PD opportunities to learn more strategies and resources that promote a safe, inclusive learning environment. All new teachers will be given a mentor teacher and time to collaborate with the school counselors and administrators to help them implement the Responsive Classroom and Positive Behavior Intervention Strategies that are part of the MTSS. All teachers will receive ongoing training in social and emotional curriculum from the school counselors, Ed. Specialists and the administration team. The administration will visit classrooms regularly to evaluate the supports and strategies teachers are using as tier 1 and tier 2 interventions.</p> <p>d. All teachers will have designated time in team meetings and PLCs to become knowledgeable in the English Language Development Standards, The CDE English Development Roadmap, including aligning content standards to ELL Standards, using research-proven instructional strategies to scaffold learning for ELL students. All</p>	\$232,783.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>teachers will use the results of the student's ELPAC scores to understand the needs of ELL students enrolled in their classes. The administration team will ask team leads for data on the progress of EL students and RFEP students.</p> <p>e. PLCs will follow norms and protocols and share agendas and notes from meetings with the administration team after PLC meetings.</p>		
3.2	<p>The most important factor in student achievement is the quality of the teacher in the classroom. The Administration team will continually monitor the development of teachers according to Teaching Professional Standards.</p>	<p>Teachers must be equipped with resources and professional development opportunities that focus on research-based teaching practices that have been proven to be effective and support the learning needs of all students.</p> <p>Effective schools create communities of professionals that constantly strive to get better. In order to achieve this, schools must provide high-quality, professional development that meets employees at their point of need.</p> <p>a. Provide support to beginning teachers through approved BTSA programs. Principals pair new teachers with mentor teachers and schedule time for teachers to observe each other's teaching practice and to meet in weekly planning collaborations.</p> <p>b. Provide specialized support and training for intern teachers, special education teachers, counselors, and administrators.</p> <p>c. Principals and teachers collaborate to develop and reflect on professional goals that align with the school vision and examine data and expand knowledge of high-quality teaching strategies and curriculum to identify professional development that will support the school vision.</p> <p>Administrators will schedule regular classroom observations and offer supportive feedback to promote teachers' growth in becoming highly effective teachers.</p>	\$243,144.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>d.All teachers will participate in a self-reflection process to be active participants in their own professional growth. Teachers will be observed by a member of the administration team and/or mentor teachers and collaborate in the teacher reflection process and teacher growth. Teachers will work with school leaders to identify areas for professional growth</p> <p>e. Identify expert resources from within and outside of the school community to lead professional development sessions that are proven to meet the needs of our student demographics, with a special focus on students who are underperforming.</p> <p>f. Teams support each other's growth as professionals in PLCs that meet on a regular basis to monitor and evaluate the effectiveness of teaching practices on student growth through examining student work and data to determine if pacing and instruction are effective</p> <p>g. Implement a newly designed compensation model to retain and recruit highly skilled teaching staff.</p>		
3.3	Expand PD opportunities for classified staff and paraprofessionals	<p>Expand specific professional development opportunities for employees who are in positions that serve students with limited resources at the site (counselors, specialist staff, IA's, etc.).</p> <p>a. School counselors will attend conferences and have opportunities to lead PLCs and parent meetings about social and emotional curriculum, including suicide prevention, family living, and internet safety.</p> <p>b.School counselors and School psychologists will attend ongoing PD on MTSS and then lead PD sessions with school staff.</p>	\$21,728.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>c. Paraprofessionals will be offered opportunities to attend Selpa webinars, and receive training from Ed. Specialists, and receive specialized training about de-escalating students. Instructional Assistants will meet with Ed. specialists to learn how to best support the students they serve including behavioral support and data collection.</p>		
3.4	<p>All staff will support an equitable, safe, learning environment where all students and feel represented, valued and safe.</p>	<p>SDCCS values inclusion and equity and will continue to work to maintain a safe and inclusive environment. Staff members are expected to seek to understand and use what we learn from our families to invite diversity, eradicate stereotypes, enhance self-esteem, encourage all members of the community to have a voice, and demand educational achievement</p> <p>A. Student and Parent surveys about equity and inclusion will be given to families annually.</p> <p>B. School staff will study the responses from the student and parent surveys and work to improve upon creating a safe and equitable learning environment.</p> <p>C. Equity and inclusion will be regular topics of discussions at parent meetings and teachers will seek to understand families and make sure the curriculum and classroom practices are reflective of the families we serve.</p> <p>D. Teachers and administration will engage in self-study meetings to ensure our school curriculum represents a wide range of perspectives and create a school culture in which the agreements, conditions, and compass of courageous conversations are practices that are internalized by all educators.</p> <p>E. Take a principled position on critical issues. Staff is trained through professional development and access to community resources to learn</p>	\$114,534.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>about gender and racial, equity as well as equity and inclusion for students with exceptional needs.</p> <p>F. School leaders will work cooperatively with the community to determine a set of core values to guide all relationships. School administrators will continue to work with USD an Ashoka changemaker school and continue to seek relationships with other community groups and universities to continue to make progress in creating an inclusive and safe learning environment for all.</p>		
3.5	Staff will be highly trained to maintain a physically safe school environment.	Staff will participate in monthly safety drills and will have opportunities to work on the Comprehensive Safety Plan.	\$56,354.00	No

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

We were happy to have a plan to increase our IA training by 3 additional days.

Our safety plan was reviewed and approved in the spring instead of September. We will conduct our annual training with staff in September. We have been collaborating with our School Police Officer who plans to conduct student training in the fall.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Although we did increase our IA training to five days it was reduced by two days as there was a COVID outbreak and we wanted to reduce the spread. We have plans for a five day IA training for the upcoming year.

An explanation of how effective the specific actions were in making progress toward the goal.

The goal of creating an entire lock down drill is a very large undertaking. This drill will be done with the feedback of our School Police and San Diego Emergency Services. We have already begun our planning towards this for fall of 2022.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

We did not make any substantial changes.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
4	Developed a Multi-Tiered System of Supports (MTSS) framework as part of a strategic effort to meet the academic needs of the SDCCS’s diverse student population specifically our English Learners, Foster Youth and students with Disabilities.

An explanation of why the LEA has developed this goal.

Strengthening our EL program is something that has been an ongoing goal for our school. We can see in our data that it is an area of growth. Our EL population has been steadily growing since 2007 and as it grows we need to continue to grow our program.

As a CoOp supporting our families is a priority, we have found success in increased engagement by directly contacting EL families using their native language. Families have reported feeling more included and embraced in our community.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
4A. Increased percent of EL who progress in English proficiency as measured by the ELPAC.	Establish a new baseline as one school of the percent of EL who progress in English proficiency as measured by the ELPAC	33% of our Emergent Bilingual students were identified in the performance level of well developed measured by the ELPAC			36% of our Emergent Bilingual students were identified in the performance level of well developed measured by the ELPAC
4B. Increased English Learner reclassification rate.	Establish a new baseline as one school for our reclassification rate in 2020-2021.	1% of our Emergent Bilingual Students were reclassified in 2021-2022.			3% of our Emergent Bilingual Students will be reclassified.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
4C. Increased CAASPP scores for students with special needs in Language Arts, Reading and Math.	CAASPP Scores for students with special needs who met or exceeded standards L. Arts= 28.26 Math= 19.76	CAASPP Scores for students with special needs who met or exceeded standards L. Arts=40.3 Math= 26.87 Scores from 2020-2021			CAASPP Scores for students with special needs L. Arts= 37.27 Math= 25.76

We will use The California English Learner Roadmap: Strengthening Comprehensive Educational Policies, Programs, and Practices for English Learners (CA EL Roadmap).</p> <p>d. The committee will support English learners fully and meaningfully access and participate in a twenty-first-century education through small group interventions and support.</p>	\$34,612.00	Yes
4.2	School climates and campuses are affirming, inclusive, and safe.	The school will create an Equity Action plan to ensure that all EL students are supported in an environment that supports equity, diversity, and inclusion.	\$5,000.00	No

Action #	Title	Description	Total Funds	Contributing
		a. We will develop a collaborative framework for identifying Emergent Bilingual students with disabilities and use valid assessment practices. Our school will ensure appropriate individualized education programs (IEPs) that support culturally and linguistically inclusive practices and provide appropriate training to teachers, thus leveraging expertise specific to English learners.		
4.3	We will be creating a three-week Chillin' and Skillin' camp that will serve our English Learners, Students of Color, Foster Youth, and those who are socioeconomically disadvantaged	Our camp will run for four weeks with nine hours days, programs will consist of targeted interventions in Orton Gillingham reading instruction, Illustrative Math activities, Science Labs, and other academically engaging activities. It will be staffed by Teachers and IA's keeping a low staff-to-student ratio. The staff will be trained before the camp begins and all will be involved in the planning and execution of the curriculum.	\$65,695.00	No
4.4	Zero hour and after school tutoring	<p>We will create zero-hour for any of the students that could benefit from an early morning warm-up to the day, review, and targeted interventions to reduce the learning gap. We will be offering both before and after-school tutoring through FEV.</p> <ul style="list-style-type: none"> We will use our MTSS to drive targeted instruction during tutoring. We will actively monitor student progress and data to drive instructions We will use MAPS, CAASPP, and ELCAP data to build a learning plan 	\$55,125.00	No

Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

We were successful in beginning to create MTSS and EL programs. The substantive difference in planned actions was that we were unable to offer before and after-school tutoring due to COVID - 19.

Additionally, we increased our summer camps from 3 to 4 weeks to increase services for our unduplicated students.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

We were unable to conduct before and after-school tutoring due to the exposure of mixing cohorts due to COVID - 19. We did however contract with FEV tutoring to allow for at home or school online tutoring.

In the fiscal year 22-23, we will be using the ELO-P funds to provide 9 hours school days plus 30 intersession days for all students but with a specific focus on unduplicated students through academic support and enrichment of the whole child.

An explanation of how effective the specific actions were in making progress toward the goal.

We established a baseline of students who are reclassified with ELPAC. We believe that establishing a strong Emergent Bilingual Program will go a long way in supporting our EL students.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

We established a baseline for ELPAC reclassification of 3%.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2022-23]

Projected LCFF Supplemental and/or Concentration Grants	Projected Additional LCFF Concentration Grant (15 percent)
\$340,593	\$0.00

Required Percentage to Increase or Improve Services for the LCAP Year

Projected Percentage to Increase or Improve Services for the Coming School Year	LCFF Carryover — Percentage	LCFF Carryover — Dollar	Total Percentage to Increase or Improve Services for the Coming School Year
7.56%	0.00%	\$0.00	7.56%

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

- 1.1 Maintain an Exceptional Progressive Base Program with Rich Professional Development - This goal is in service to all students however our focus on EL, Low SES, and Foster Youth needs are considered and focused on at SDCCS. Our work with Learning While Leading allows us to better understand the needs of our unduplicated populations.
- 1.9 Math professional development that continues the learning, accountability, and pacing involved with Illustrative Math - Our math program is very good however it relies heavily on reading. It is important for our teachers to understand how to modify or adapt to meet the needs of our unduplicated youth.
- 1.11 We developed a School Re-Engagement plan for the 2019 LCP that works to communicate with families and students when kids are not attending class - As a staff, we review data together and track closely our students who are Emergent Bilinguals, Foster Youth, and Low SES to see what we can do to support families. Our efforts at translation have helped greatly.
- 2.1, 2.2, 2.3 Parent Engagement and Teacher /Parent Communications / Administration/Parent Communications- We understand the need to communicate, invite and inform parents about our program and how to be involved. We have increased our translations in newsletters and meetings. We have also made a point to reach out to families who may need help with paperwork or make sure that they attend necessary meetings and support them and their family's needs.
- 2.4 Parent/Teacher Conferences - This connection is one that is greatly valued and nurtured at SDCCS. Understanding the needs of our unduplicated students and families allows us to better understand their needs. The work of making these conferences happen really falls on

the teacher to make meeting times that work for all families, have flexibility with zoom meetings and to schedule translation to allow for families to better engage with the staff.

3.1 Schoolwide focus on curriculum development and instructional practices to meet the needs of all students. - This goal is in service to all students however our focus on EL, Low SES and foster youth needs are considered and focused on at SDCCS. Our work with Learning While Leading allows us to better understand the needs of our unduplicated populations.

3.2 The most important factor in student achievement is the quality of the teacher in the classroom. The Administration team will continually monitor the development of teachers according to Teaching Professional Standards. - The professional development with Learning While Leading allows us to further connect with students who are EL, Low SES, and Foster Youth with empathy interviews that allow us to understand the distinct needs and struggles of being an unduplicated student.

3.3 Expand PD opportunities for classified staff and paraprofessionals - Having a low student to adult ratio is valued at SDCCS. What makes it even more valuable are staff that are empathetic and trained to meet the needs of all students. Our IA's are trained to modify work and scaffold it to meet the needs of our unduplicated student population.

3.4 All staff will support an equitable, safe, learning environment where all students feel represented, valued, and safe. - Representation and a sense of belonging are essential. Finding book titles and stories that represent the lives of all students in a class is essential.

3.5 Staff will be highly trained to maintain a physically safe school environment. - We ensure that students physical and emotional needs are met at all times. This may look different for our unduplicated students. We have created a food pantry and clothing swap to assist families with their needs beyond school. Additionally we are offering both breakfast and lunch to students who may be food insecure along with stocking our classrooms with healthy snacks available to all students.

4.2 School climates and campuses are affirming, inclusive, and safe. - This is an essential part of our cooperative community. Meeting the needs of our families who are Low SES, EL and Foster Youth may look different and invitations are given to them for events and their needs are met to ensure they feel safe and included in our community.

4.3 We will be creating a three-week Chillin' and Skillin' camp that will serve our English Learners, Students of Color, Foster Youth, and those who are socioeconomically disadvantaged - The invitation to this four week camp is offered to our unduplicated students first

4.4 Zero hour and after school care - We will be taking care of the cost for all before and after care programs allowing for all families to participate.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

For 2022-23, San Diego Cooperative Charter School will expend \$795,812 in Supplemental Funds and Concentration funds for continued improved and increased service and educational supports for unduplicated students (English learners (EL), foster youth (FY), low-income (LI) students).

We will be offering camps in the summer, winter and spring specifically focused on supporting our unduplicated students academically, and social emotionally. These camps will keep kids engaged in learning and scholarly activities. For the 2022-2023 school year, we will be offering both before and after school tutoring with intentionally designed targeted interventions with our ELO-P funding.

San Diego Cooperative Charter School has an unduplicated student rate projection of 44.77%. The use of supplemental funds will be used to provide increased and improved services for the benefit of our unduplicated students. Although services and strategies are being put into place to support our unduplicated students, there are strategies such as increased accountability through common assessments and increased access to materials aligned with Common Core Standards that will certainly benefit all students.

The school's target proportionality percentage for 2022-23 is 8.86%. Services and supports for unduplicated students will be increased and improved by at least 8.86% compared to services and supports provided to all students for the fiscal year 2022-23.

- EL = coordinator stipend
- Homeless/Foster = Counseling
- Low income = EFT and field trips
- Parent Training Coordinator stipend
- Before school academic prep week at both campuses

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

N/A - SDCCS is not eligible for the concentration grant (below 55%)

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	24:1	N/A
Staff-to-student ratio of certificated staff providing direct services to students	24:1	N/A

Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

General Information – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

Reflections: Successes – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

Reflections: Identified Need – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

LCAP Highlights – Identify and briefly summarize the key features of this year's LCAP.

Comprehensive Support and Improvement – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC Section 52064[e][1]*). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <https://www.cde.ca.gov/re/lc/>.

Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

Local Control and Accountability Plan:

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

Prompt 2: “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions

- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

Focus Goal(s)

Goal Description: The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

Goal Description: Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Goal Description: Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Explanation of why the LEA has developed this goal: Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

Consistently low-performing student group(s) criteria: An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA’s eligibility for Differentiated

Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA's eligibility for Differentiated Assistance.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

Low-performing school(s) criteria: The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the "All Students" student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE's Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.
- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric:** Indicate how progress is being measured using a metric.
- **Baseline:** Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome:** When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome:** When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome:** When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24:** When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023–24)
Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2022–23 . Leave blank until then.	Enter information in this box when completing the LCAP for 2023–24 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 . Leave blank until then.	Enter information in this box when completing the LCAP for 2021–22 or when adding a new metric.

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

Actions: Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (**Note:** for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

Actions for English Learners: School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC* Section 306, provided to students and professional development activities specific to English learners.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Requirements and Instructions

Projected LCFF Supplemental and/or Concentration Grants: Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.

Projected Additional LCFF Concentration Grant (15 percent): Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year: Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

LCFF Carryover — Percentage: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar: Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year: Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

Required Descriptions:

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

Principally Directed and Effective: An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55 percent: For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55 percent: For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40 percent or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)

- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column
- 5. Total Planned Percentage of Improved Services
 - This percentage is the total of the Planned Percentage of Improved Services column
- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- 6. Estimated Actual LCFF Supplemental and Concentration Grants
 - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)

- 7. Total Estimated Actual Expenditures for Contributing Actions
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)
- Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)
- 5. Total Planned Percentage of Improved Services (%)
 - This amount is the total of the Planned Percentage of Improved Services column
- 8. Total Estimated Actual Percentage of Improved Services (%)
 - This amount is the total of the Estimated Actual Percentage of Improved Services column
- Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

LCFF Carryover Table

- 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)
 - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- 13. LCFF Carryover — Percentage (12 divided by 9)
 - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
