

2026-2027 - SDCCS 5th Grade Supply List

The 5th grade community will be using shared supplies. It builds community, ensures equity and lowers transition time between classes. We want the 5th graders to express their individuality and creativity through their academics and creative projects. The below list is based on what is typically consumed over the course of a school year. SDCCS does not have a central school supply inventory and relies on the generosity of our community members to outfit the classrooms. Please send the following items to support learning. Thank you for your generosity!

To make this process easier for you, [this link will allow you to one-click](#) generate a supply list for your favorite vendor (i.e., Amazon, Target, Independent Sellers). Please drop off supplies at our welcome event in August or the first week of school. Link: <http://bit.ly/49P5gAv>
